Lauren,

Forgot to mention our additional days of availability for an in-person meeting, given Pam's being out. We're also free on February 19th or 20th.

Best,

-Davon

Thanks for trying to arrange something sooner, Lauren. In our view, getting comfortable with the potential use of our north landfill is complex, involving not only legal releases, funding of cap construction, and ultimate disposition of the land, but ongoing negotiations with the City of Syracuse and Onondaga County as to their liability for the current remedial work being conducted at the north landfill.

Ok, thanks. Would a conference call rather than an in-person meeting enable us to have the discussion sooner? Perhaps we could schedule a phone call (I anticipate 2 hours would be sufficient for our purposes) in the next few weeks which could be followed by an in-person meeting (should it still be necessary) when Pam returns.

Thanks, Lauren

We tried for the earliest date, which was the 10th. We'll confer internally and get back to you regarding dates the week of February 17th. I'm sure we'll work something out (eventually)!

Best,

-Davon

Unfortunately, Pam is not available from Feb 7-15. Can we meet either this week or next?

Hi, Lauren

Thanks for your patience. Would you, Pam and Joel be available to have an in-person meeting with Eaton management to discuss the matter further the afternoon of Monday, February 10th or the morning/afternoon of Tuesday, February 11th?

Best,

-Davon

Davon,

Any luck discussing this matter with your client? We would really like to arrange a time to talk soon.

Lauren

Lauren,

Happy New Year to you as well! Apologies for our slow response, but we're still discussing the matter internally with our client. However, we hope to be able to get back in touch with you soon.

Best,

-Davon

Subject: Lower Ley Creek-local disposal

Hello Gary and Davon,

Happy New Year! I know you are eager to hear from EPA regarding the additional PRPs your group proposed we send notice letters to regarding liability at Lower Ley Creek. We are still discussing that issue internally, but much of our time of late has been focused on drafting the proposed plan for Lower Ley Creek. As you know, we are looking into local disposal options for the non-TSCA dredging material (less than 50 ppm of PCBs), with the Salina Landfill and Crouse Hinds North Landfill topping the list of viable disposal locations. We had a discussion with the Town of Salina today and heard its position on the matter. We wanted to reach out to you to gauge your client's interest/concerns with this proposal. I know that your client had some reservations about this a couple of months ago, but we wanted to see where things stand today. Please let me know your availability for a call next week (except for Friday) and I'll set something up. I anticipate that our technical people (Pam Tames and Joel Singerman) will participate, so please include anyone from Cooper who may be able to contribute to the discussion.

Hope this email finds you well.

Regards,

Lauren P. Charney
